DETAILED ACTION

Status of Application/Amendment/Claims

This Office action is in response to the communications filed on August 10, 2007.

Currently, claims 21-23 and 32-36 are pending.

The following rejections are either newly applied or are reiterated and are the only rejections and/or objections presently applied to the instant application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Arguments and Amendments

Withdrawn Rejections

Any rejections not repeated in this Office action are hereby withdrawn.

Maintained Rejections

Claim Rejections - 35 USC § 102

Claims 21, 23, and 32-33 remain rejected under 35 U.S.C. 102(e) as being anticipated by Mounts et al. for the reasons of record as set forth in the Office action mailed on July 10, 2007 and for the reasons stated below.

Applicant's arguments filed on August 10, 2007 have been fully considered but they are not persuasive. Applicant states that "As submitted herewith in Appendix A, Figure 877B of U.S. Provisional Appl. No. 60/457,788 teaches the 24 nucleotide sequence as set forth in SEQ ID

Art Unit: 1635

NO:3588. Although Figure 877B of the '788 application is not present in the United States Patent and Trademark Office's Private Pair system, this figure, along with the sequence of SEQ ID NO:3588, were originally submitted on compact discs along with the '788 application on March 27, 2003." See page 4 of the Remarks. Contrary to applicant's statement, Appendix A was not submitted with applicant's reply filed on August 10, 2007. Furthermore, the alleged compact discs submitted along with the '788 application are not found in the application file. Since applicant has failed to provide appropriate evidence in support of the alleged priority date for SEQ ID NO:3588, the benefit of the filing date of '788 application is denied, and therefore, this rejection is maintained.

Claim Rejections - 35 USC § 103

Claims 21, 23, 32-33, and 36 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Mounts et al. in view of Paul et al. for the reasons of record as set forth in the Office action mailed on July 10, 2007 and for the reasons stated below.

Applicant's arguments filed on August 10, 2007 have been fully considered but they are not persuasive. Applicant argues that the 102(e) rejection is moot and therefore Paul et al. cannot stand alone as a proper 103(a) reference. As stated above, applicant's failure to provide the alleged Figure 877B as attached in "Appendix A" renders the 102(e) rejection valid. Hence, this rejection is maintained.

New Objections Necessitated by Amendments

Currently, claims 22, 32, 33, 34, and 35 are amended.

Claim Objections

Claims 22, 32, and 34 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 21. Note that the claimed subject matter pertaining to (a), (b), and (d) of claims 22, 32, and 34 is identical to that of claim 21. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claims 33 and 35 are objected to under 37 CFR 1.75 as being a substantial duplicate of claim 23. Note that the claimed subject matter pertaining to (a), (b), and (d) of claims 33 and 35 is identical to that of claim 23. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Conclusion

No claim is in condition for allowance.

Art Unit: 1635

Applicant's amendment necessitated the new ground(s) of objection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
